## How to Install

Unzip the file 'Android Trader.zip' downloaded from our website and save the file 'AndroidTrader.apk' in the desired folder. Connect your phone to the PC using your Android data cable (an Android file manager is required, if you do not yet have this, it can be found on Android Market) and copy the 'AndroidTrader.apk' file onto your SD memory card. You can browse the file later (after you have disconnected the phone from the PC). Using the File Manager, click on the AndroidTrader.apk file, which will install the application on your phone.

## How to Login

First, you must locate the Android Trader software icon on your Android, after installation it should be found on your Android home screen. Click on the Android Trader icon and you will come to a login page for your trading account.

Click on the text fields to edit and input your login and password:

**Login** – Your trading account login

**Password** – Your trading account password

**Servers** – By clicking on the '**Server**' button, you have the option of selecting the server.

After entering your account login details, click on the **Login** button.

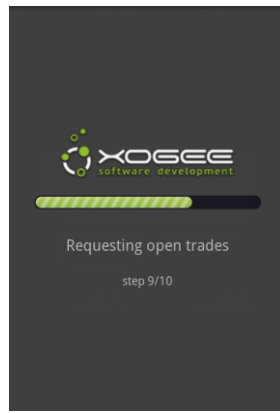

Once clicking on the login button your Smartphone will attempt to connect to the server and log you into your trading account.

[Type text]

## Save password

Please note that after your first login, your login credentials will be stored so that the following time you open the software you do not have to re-enter. You can disable or enable **save password** option. To do this tap on 'floppy disk' icon next to your password, you will be notified about the changing. By default, '**Remember Password**' is ON.

In the case of your Android going temporarily into sleep mode, when you use it again it will automatically reconnect to the server.

*The image displayed to you upon reconnection or in the event of logging in.*

## Saving account details

When logging into your account, the application allows for the details of multiple accounts to be saved. This “**save account details**” option, allows you to choose which accounts you wish to save your passwords for (i.e. Demo accounts) and which accounts you wish to remain unsaved.

You have the option to save your Account details, including your password, or to save without the password.

To save your account password within the Android Trader, please ensure the '**Remember Password**' option is ON when logging into the account.

To save your account details without the password, simply switch off the '**Remember Password**' before logging in.

Once you have logged into the account, this can be found listed within the account number field, of the log in form. To access your list of account numbers, simply tap on the account number field.

Please be aware that when saving your account details to your Android Trader, using the '**Remember Password**' option, your details will be remembered for each log in (unless removed from your account list via the 'Remove' option).

By selecting the “Remove” option listed along each of the saved accounts, you are able to remove unwanted accounts, also accounts for which you no longer wish the details to be saved.

## Opening a demo account

In order to open a Demo account via your Android, simply select the 'Create Demo Account' button found below the Login button. You will be required to submit a small registration form and then once you click 'Register' your account details will be provided for you. The details will be automatically filled into the login page.

A screenshot of an Android application's registration form. The form is titled "Registration form" and includes the instruction "Please fill the following form to create a demo account." Below this, a red note states "Fields marked with \* are mandatory." The form contains several input fields: "Server\*", "Name\*", "Email\*", "Country\*", "Leverage\*", "Account Type\*", and "Deposit\*", each with a right-pointing arrow. At the bottom of the form is a "Register" button. The background is dark, and the text is light-colored.

## The 6 Main Sections

Upon logging in you will come to the rates area, within the Android Trader software. There are 5 main areas that you should familiarize yourself with. These are:

**Rates** - Brings up the full list of all available instruments.

**Favorites** - You can store your favorite instruments which you wish easily locate and always be viewed in this area.

**Trades** - This area shows your open order details – **Open positions, Pending orders and Account status with balance, equity, P/L, margin level, credit, free margin.**

**History** - Your trade history gives you the ability to monitor your closed orders, removed pending orders, deposits/withdrawals, and credit within any given timeframe.

**News** – Enables the access to financial news directly from the trading server.

**Mail** – Enables the access to internal mailing notifications directly from the trading server.

Remember these categories are always located along the bottom of the software and are the default 6 main sections.

## Rates

Symbol	Bid	Ask
EURUSD	1.4276 <sup>4</sup>	1.4277 <sup>3</sup>
GBPUSD	1.6165 <sup>7</sup>	1.6166 <sup>7</sup>
USDCHF	0.8476 <sup>5</sup>	0.8477 <sup>5</sup>
USDJPY	80.33 <sup>1</sup>	80.34 <sup>3</sup>
AUDUSD	1.0621 <sup>9</sup>	1.0623 <sup>3</sup>
USDCAD	0.9787 <sup>5</sup>	0.9788 <sup>1</sup>
NZDUSD	0.8084 <sup>1</sup>	0.8086 <sup>1</sup>

By Selecting the 'Rates' tab your Smartphone will open a page which contains all available instruments, their bid and ask rates, current spread, the time of last price and low and high for the current day.

Taping on an instrument within Rates area a popup bar comes up with the following options:

**Instant (or Market)** – Opens an instant or market order, depending on the execution type of the instrument.

**Pending** – Creates a pending order: Buy Limit, Sell Limit, Buy Stop, Sell Stop

**Chart** – Directs you to a chart window.

**Favorites** – Adds this instrument to 'Favorites'

## Favorites

Symbol	Bid	Ask
GBPUSD	1.6173 <sup>3</sup>	1.6175 <sup>3</sup>
EURUSD	1.4284 <sup>3</sup>	1.4285 <sup>1</sup>
USDJPY	80.28 <sup>1</sup>	80.29 <sup>3</sup>

The Favorites application gives you the ability to customize your favorite instruments within one single area using the above-mentioned method.

Taping on an instrument within Favorites area a popup bar comes up with the following options:

**Instant (or Market)** – Opens an instant or market order depending on the execution type of the instrument.

**Pending** – Creates a pending order: Buy Limit, Sell Limit, Buy Stop, Sell Stop

**Chart** – Directs you to a chart window.

**Move up** – Moves instrument up in the list

**Move down** – Moves instrument down in the list

**Favorites** – Removes this instrument from 'Favorites'

## Trades

The **Trades** section shows the order details of your open positions and pending orders, as well as allowing you to close an open position or modify an order. It also indicates the **Balance** section with your current profit/loss including swap and commission in open positions, used margin, free margin, equity, margin level, and credit.

When viewing your trades you have a number of options, you can view these as the deposit currency, as points or alternatively using the collective view. The collective view allows you to group all trades of the same currency, giving you a more comprehensive view of your trading activity. All options can be found by selecting the 'menu' button of your Android.

## Opening a New Order

Opening an order is simple and can be done from either the Rates section or the Favorites section of the Android Trader. A new order can be placed by selecting a trading instrument of your choice from the main screens of both the **Favorites** and **Rates** sections. Clicking on your desired instrument will bring you to a popup bar. Alternatively, you are able to switch between an Instant and pending order by selecting the menu button of your device.

Choose **'Instant'** or **'Market'** (depending on execution type of the instrument) to open a new open position.

For *instant orders* you can select and change the volume (vol), set a stop loss (S/L) or take profit (T/P), then you must choose whether to **'Buy'** or **'Sell'** by clicking the corresponding button. For *Market orders*, you can select and change the volume (vol) then you must choose whether to **'Buy'** or **'Sell'** by clicking the corresponding button and your request to open a new position will be sent. A [confirmation](#) screen should appear shortly after the request is approved.

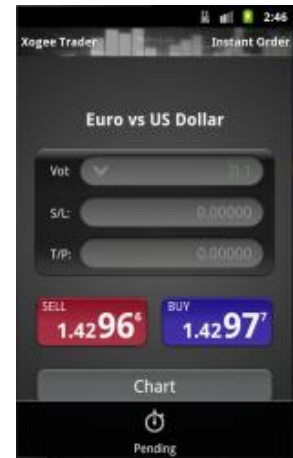

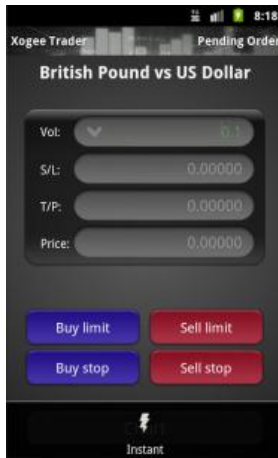

To create a *Pending order* you may either select the **'Pending'** button from the pop up bar or alternatively select the menu button from the instant order screen. The window for creating a pending order will appear. Again, you have the volume (Vol), stop loss (S/L), and take profit (T/P). With the pending order, you set the price that you want the order to activate. By selecting the 'price' option, you will be presented with a scrolling 'Price picker'. Once you have chosen your price, click ok followed by your desired type of the order: Buy Limit, Sell Limit, Buy Stop, and Sell Stop. A [confirmation](#) screen should appear shortly.

You can easily switch to [chart](#) window either from 'Instant (Market) Order' or from 'Pending Order' window by clicking on 'Chart' button below.

*The 'Price picker'*

*When switching between orders via the "menu" button, you will see 1 of the 2 screens.*

## Modifying Open Positions

Clicking on an *Open position* will give you details of that order. From here, you can: **Update / Close**. If you change or set a Stop Loss (S/L) or Take Profit (T/P) on an open position you must simply click on the '**Update**' button to confirm the changes. A confirmation screen should appear shortly after updating the order. If you decide to close an open position tap '**Close**' and your request will be sent. A [confirmation](#) screen should appear shortly after the request was approved.

## Modifying Pending Orders

If you select a *pending order* from the **Trades** area, you have the option to **Update / Delete** the pending order. You can change or adjust the open price, the Stop Loss (S/L) and the Take Profit (T/P), remember after making such changes to click on '**Update**'. Again, a [confirmation](#) should appear shortly after '**Update**' or '**Delete**' the order.

## Partial Close

The partial close option allows you to close part of your trade, leaving the remaining Volume open. In order to partially close your trade, the Volume must be changed within the Volume box. Once making your desired changes you must then click **“Close”** button. When successfully updated you should receive a confirmation screen.

## Charts

Tapping into the chart button in the popup bar will bring you to the chart of the instrument. You have the ability to scroll back on the chart, by moving your finger horizontally, and to zoom in and out by clicking the 'menu' button of your smartphone and choosing the desired zoom option. If you turn your smartphone horizontally, the chart will open to a wider view.

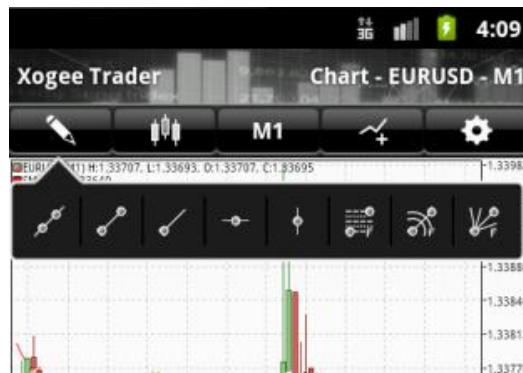

Full-View – Vertical

Full-View - Horizontal

## Technical Analysis

Within the charts area, you have access to technical analysis. All analysis options can be found along the top of your chart, in both vertical and horizontal views.

This icon shows your basic drawing options. When adding lines or additions to your chart, please select this button to fix your lines in place

Allows you to switch between candle stick, bar or line charts

Allows you to magnify a specific area of your chart using the Loupe tool

Allows you to choose your time frame

Provides your charting tools, such as Trend lines and Fibonacci retracements. To add to your chart simply select the line you wish to add and place by moving the blue dot/s with your finger. To fix the line, select the 'eye' icon.

Add or remove indicators to/from your chart

Customization options

Allows you to move and edit additions on your chart

Zoom in options allow you to zoom in at x1 or x10

Remove drawings and lines from your chart

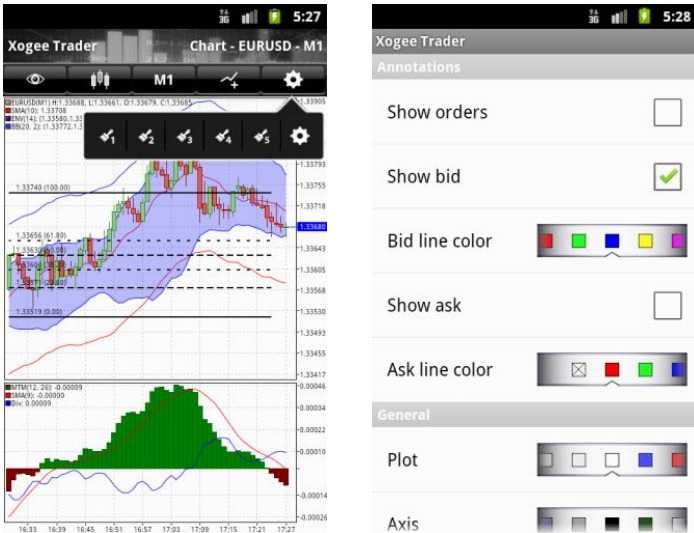

Zoom out options allows you to zoom out at x1 or x10

Separate your chart

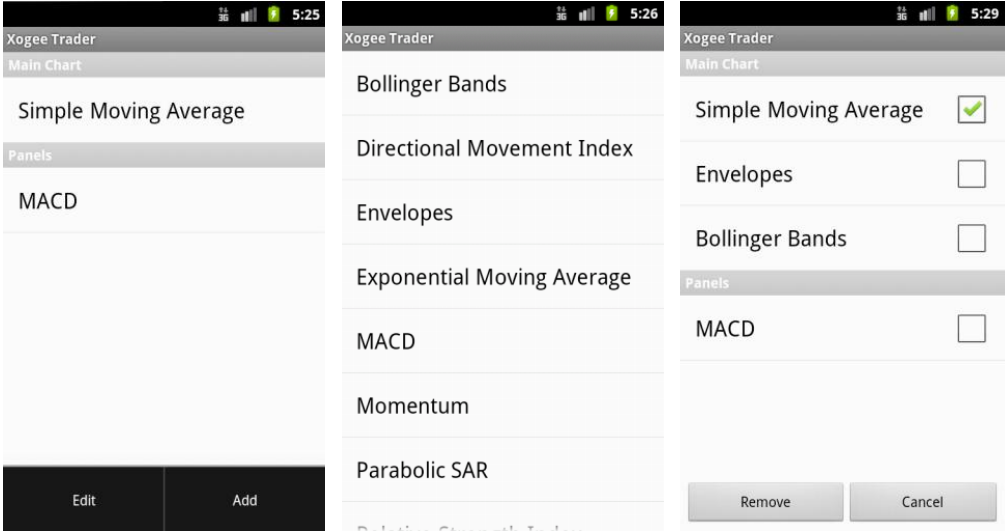

5 defaultviews are provided within the customization options

The customization menu allows you to fully customise your charts and technical analysis. You have the ability to change all chart colours, or alternatively select one of the 5 default colour views provided for you. From within this menu you are able to turn on/off your bid and ask lines, your order levels and also the loupe feature.

Your indicators list can be found by selecting the 'Add/ Remove indicators' button located above your chart. You are able to add indicators to the chart by selecting the menu button of your Android and select the 'Add' option, or remove indicators using the 'edit' option.

## Order Confirmation

Once deciding to send an *Instant (Market) order* or even when creating a pending, a screen as shown below will appear attempting to send your request through. You have an option to cancel your request clicking on the **'Cancel'** button before your order will be processed and it will indicate if your attempt was successful.

If your order was successfully executed you will be shown a message like so.

There is also another possible outcome for instant request – **'Requote'**. In this case, you will receive another message as shown in the picture below. With the **'Requote'**, you can resend your request at the new price or cancel it.

## History

Your trade history gives you comprehensive run down of all your closed orders, removed pending orders, deposits/withdrawals, and credit. You can view the following criteria on each order:

- Type - buy or sell*
- Order number*
- Volume*
- Open price*
- Stop Loss or Take Profit price*
- Close price*
- Swap*
- Commission*

By clicking on the 'History' button in the main menu of Android Trader you can access running a specific report from a certain date range. All you must do is enter the **Start date** and **End date**.

Your trade history gives you comprehensive run down of all your closed orders, removed pending orders, deposits/withdrawals, and credits. As well as your order information, for any given time period you select it will tell you at the bottom your Profit or Loss (P/L) for that period including swaps and commissions, plus your overall *Depositing* and *Withdrawals*.

## News

The News icon enables the access to financial news directly from the trading server. To view the body of any news articles you must click on it to start downloading the actual text for that article.

## Mail

The mail icon brings you to the internal mailing system. Any internal mail that was sent to you will be stored within the Android. Once you have opened the mail article you are able to delete the article by selecting the 'Delete' button at the bottom of your screen.

## Search

The Android Trader allows you to search for a specific symbol, News article, Mail message and even a specific closed or open trade. The search icon can be found within the top right hand corner of each screen. This will bring up a search box allowing you to specify the item you wish to view.
