How to Login

First, you must locate the iPad Trader software icon on your iPad, after installation it should be found on your iPad home screen. Click on the iPad Trader icon logo and you will come to a login page for your trading account.

Click on the text fields to edit and input your login and password:

Login – Your trading account login

Password – Your trading account password

Servers – By clicking on the '**Server**' button, you have the option of selecting the server.

After entering your account login details, click on the **Login** button.

Once clicking on the login button your iPad will attempt to connect to the server and log you into your trading account.

Save password

Please note that after your first login your login credentials will be stored so that the following time you open the software you do not have to re-enter. You can disable or enable **save password** option. To do this find '**Apps**' tab in the '**Settings**' of your iPad. Tap on iPad Trader and you will be shown all available setting of this application on your right. By default, '**Remember Password**' is ON.

[Type text]

Saving account details

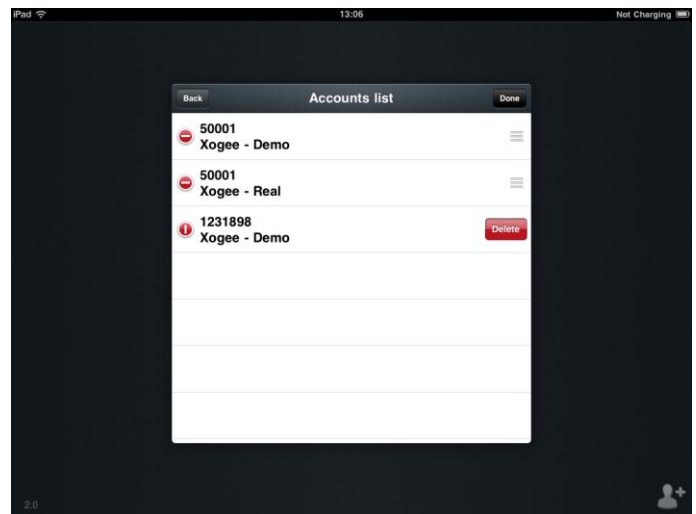

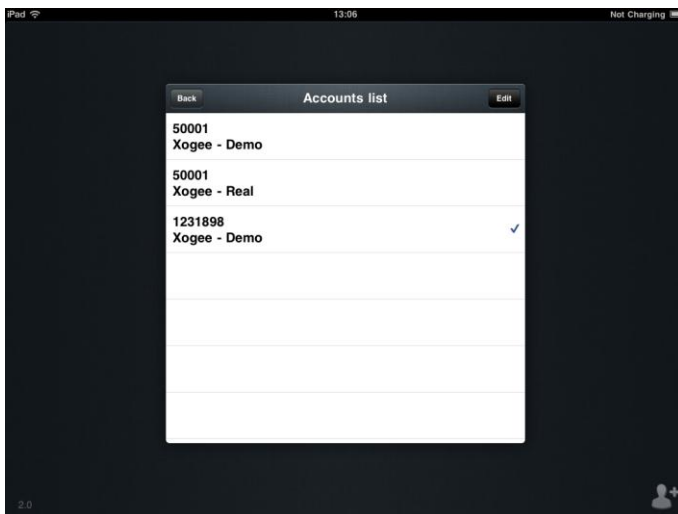

When logging into your account, the application allows for the details of multiple accounts to be saved. This **"save account details"** option, allows you to choose which accounts you wish to save your passwords for (i.e. Demo accounts) and which accounts you wish to remain unsaved.

You have the option to save your Account details, including your password, or to save without the password.

To save your account password within the iPad Trader, please ensure the **'Remember Password'** option is ON when logging into the account.

To save your account details without the password, simply switch off the **'Remember Password'** option within the **'Settings'** of your iPad before logging into your iPad Trader.

Once you have logged into the account, this can be found listed within the account number field, of the log in form. To access your list of account numbers, simply click on the account number field.

Please be aware that when saving your account details to your iPad Trader, using the **'Remember Password'** option, your details will be remembered for each log in (unless removed from your account list via the delete option).

By selecting the "edit" option within the top right corner of your screen, you are able to remove unwanted accounts, also accounts for which you no longer wish the details to be saved.

In the case of your iPad going temporarily into sleep mode, when you use it again it will automatically reconnect to the server.

Opening a demo account

In order to open a Demo account via your iPad, simply select the Registration icon found within the bottom right hand corner of the screen. You will be required to submit a small registration form and then once you click 'Register' your account details will be provided for you. The details will be automatically filled into the login page.

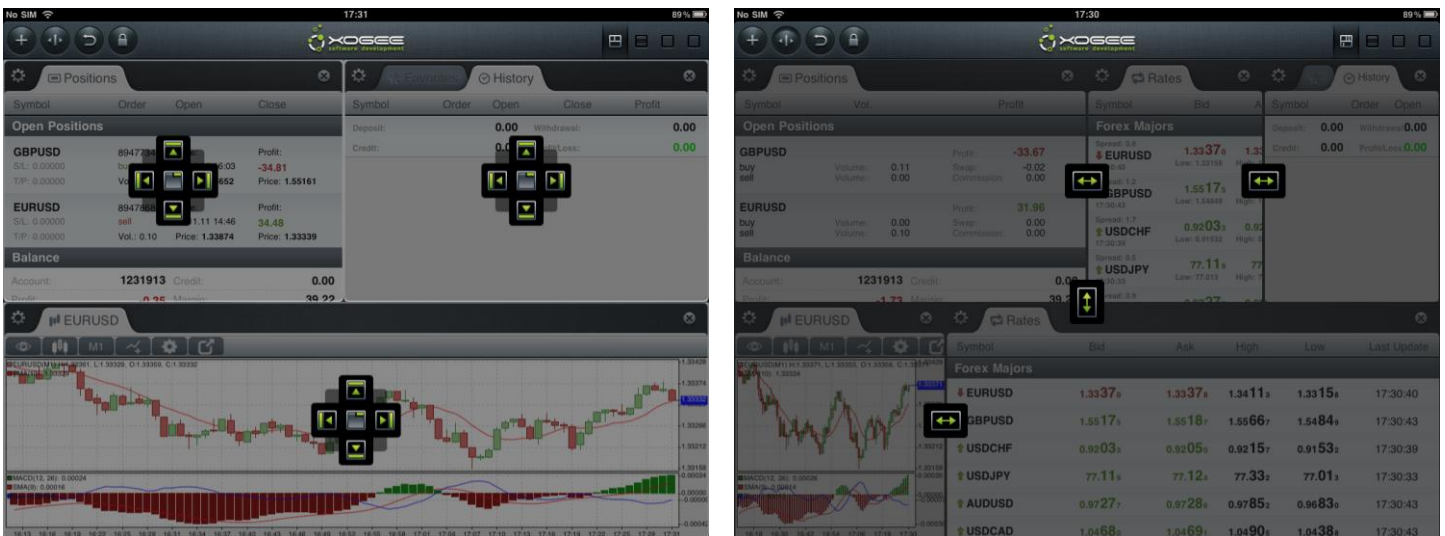

A screenshot of an iPad screen showing a 'Registration form' dialog box. The dialog has a title bar with 'Back' on the left and 'Register' on the right. Below the title bar, it says 'Please fill the following form to create a demo account. (Fields marked with * are mandatory.)'. The form contains the following fields: 'Server*' (with a right arrow), 'Name*', 'E-mail*', 'Phone*', 'State', 'City', 'Address', 'Zipcode', 'Country*' (with a right arrow), 'Account type*' (with a right arrow), 'Leverage*' (with a right arrow), and 'Deposit*' (with a right arrow). At the bottom left of the dialog is '2.0' and at the bottom right is a user icon with a plus sign.

Customizing your iPad Trader

The iPad Trader is fully customizable, allowing you to build it the way you want! Complete with Drag and Close Dock-able paneling which can be closed or opened at any time.

To add a window to the application simply select the "+" in the top left hand corner, you will then be presented with your window options. If opening multiple windows within the same screen, the following icon will appear allowing you to choose the positioning of your new window. From here you are able to choose whether you wish to add your new window alongside, above or below your current window, or to add this as a separate tab.

Windows can be adjusted and resized by selecting the Adjust button and moving the arrows to your desired size.

You have the ability to customize 4 desktops within the application. In the top right hand corner of your screen you are able to switch between screens.

The Main Sections

The screenshot shows the XOBEE iPad Trader interface. A 'Favorites' menu is open on the left, listing: Rates, Positions, History, News, Mail, Calendar, and Contacts. The main display is a table of market data with columns: Bid, Ask, High, Low, and Last Update. The table lists various currency pairs with their respective bid, ask, high, and low prices, and the last update time.

	Bid	Ask	High	Low	Last Update
EURUSD	1.3383	1.3384	1.3530	1.3373	01:11:07
EURUSD-pro	1.3383	1.3384	1.3530	1.3373	01:11:07
EURUSD	1.3383	1.3384	1.3530	1.3373	01:11:07
USD CAD	1.0431	1.0432	1.0453	1.0371	01:11:06
NZDUSD	0.7413	0.7415	0.7503	0.7397	01:11:04
EURCHF	1.2307	1.2309	1.2353	1.2283	01:11:07
EURGBP	0.8594	0.8594	0.8647	0.8590	01:11:07
EURJPY	103.31	103.32	104.12	103.26	01:11:07
GBPJPY	120.20	120.22	120.46	119.83	01:11:05
GBPCHF	1.4319	1.4322	1.4321	1.4224	01:11:06

There are 7 main areas within the iPad Trader, which you should familiarize yourself. These are:

Favorites - you can store your favorite instruments which you wish easily locate and always be viewed in this area.

Rates - brings up the full list of all available instruments.

Positions - this area shows your order details – **Open positions**, **Pending orders** and **Account status** with **balance**, **equity**, **P/L**, **margin level**, **credit**, **free margin**.

History - your trade history gives you the ability to monitor your closed orders, removed pending orders, deposits/withdrawals, and credit within any given timeframe.

News - financial news sent directly from the trading server.

Mail - internal mailing system.

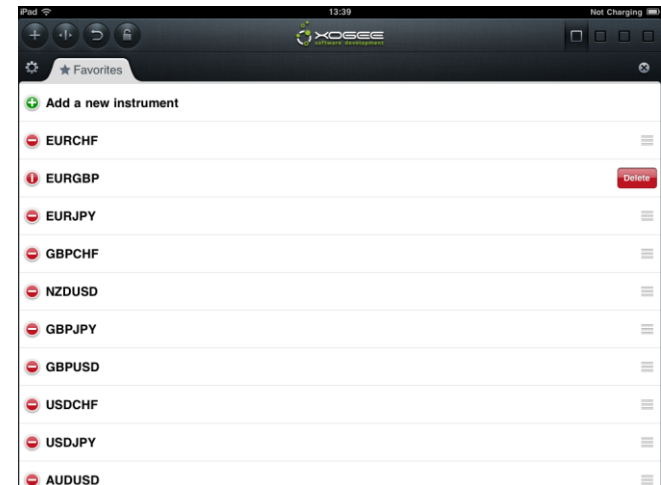

Calendar - daily economic events.

Favorites Section

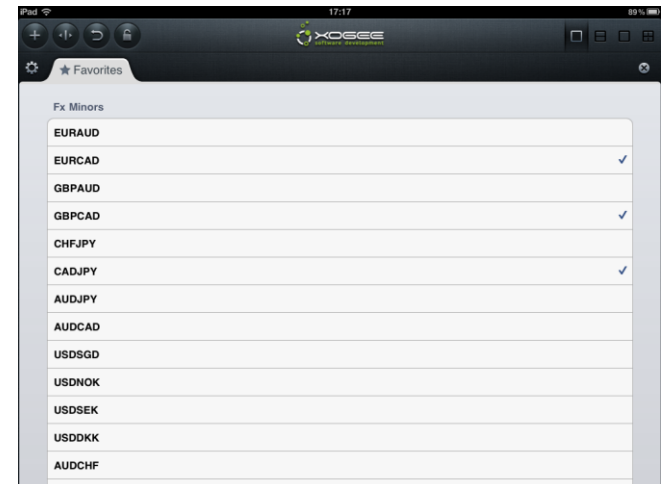

[Type text]

Within the **Favorites** area, you have the ability to customize instruments that you wish to be always viewed in this area. Selecting the options icon within the top left corner of the window, and selecting **Edit** will give you the ability to alter or change any of your favorites that you want to appear.

A screen will open once clicking on the **Edit** button. From here, you have the option to arrange, add, and delete Favorites. Holding the symbol on the right hand side of any currency pair and dragging up or down will allow you to move the position of that currency pair.

Clicking on the red delete symbol located towards the left of any currency trade will bring up the **Delete** option. Select that button to confirm the removal of that currency pair from your favorites.

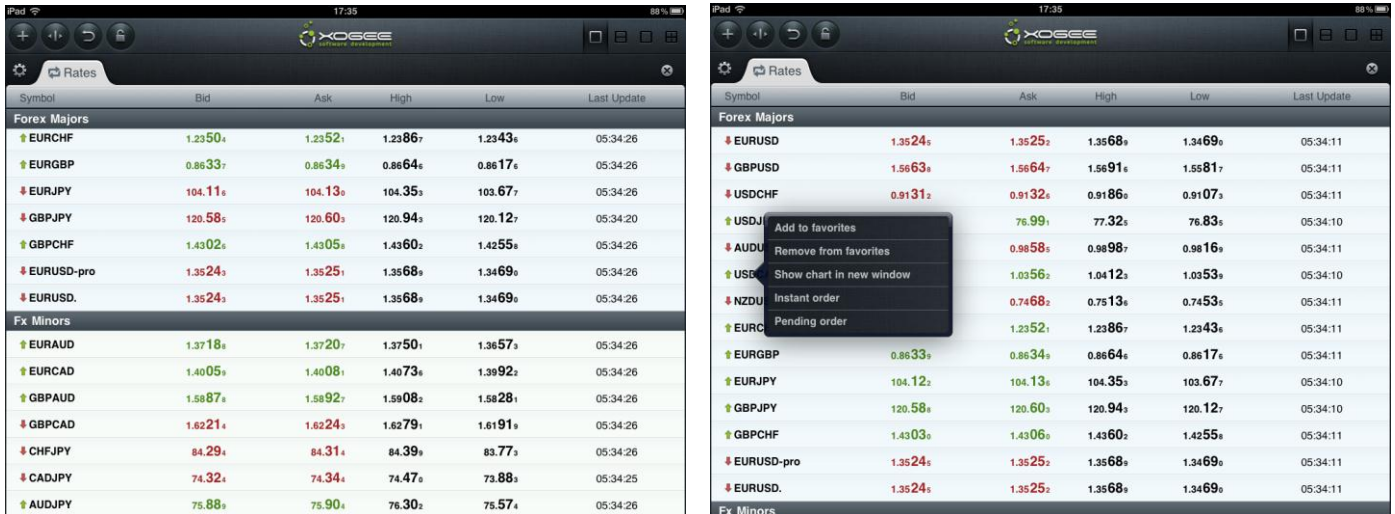

When selecting the **Add a new instrument** button, a new page will open featuring all **Groups** of instruments. Clicking on a group will bring you to a page listing all available instruments within that group. Clicking on the instrument listed will add that instrument to your favorites list. Once added you will notice a tick appear on the right hand side of your chosen instrument.

Rates Section

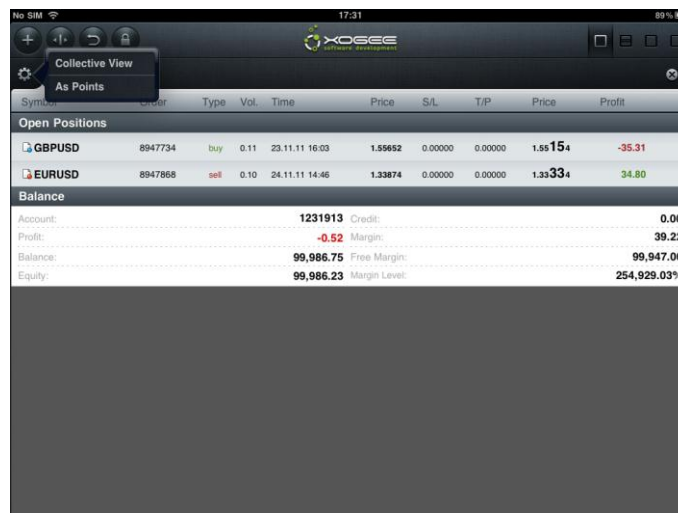

[Type text]

By Selecting the '**Rates**' option your iPad will open a window which contains all available instruments, their bid and ask rates, daily high and low, last update time. From within the Rates section you have the ability to select any given Trading Instrument and open an order, to open a chart for your desired instrument, and to add and remove instruments to/from your Favorites.

Positions Section

The **Positions** section shows the order details of your open positions and pending orders, as well as allowing you to close an open position or modify an order. It also indicates the **Balance** section with your current profit/loss including swap and commission in open positions, used margin, free margin, equity, margin level, and credit.

When viewing your trades you have a number of options, you can view these as the deposit currency, as points or alternatively using the collective view. The collective view allows you to group all trades of the same [Type text]

currency, giving you a more comprehensive view of your trading activity. All options can be found by selecting the 'Options' icon in the top left corner of the positions screen

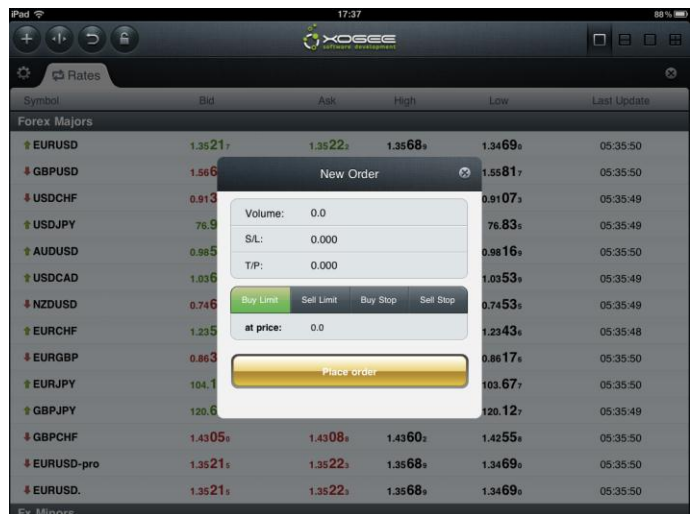

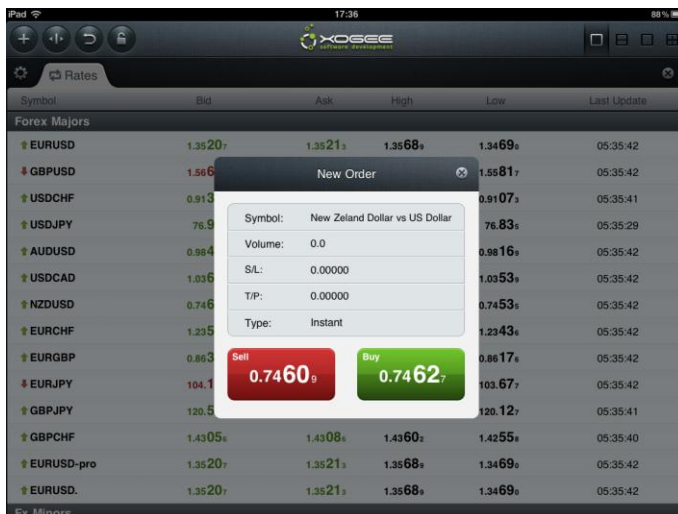

Opening a New Order

Opening an order is simple and can be done from either the **Rates** or the **Favorites** windows of the iPad Trader. Clicking on your desired Instrument within the Rates Window will provide you with a number of options: Add to Favorites, Remove from Favorites, Show chart in new window, Instant order and Pending order.

For *instant orders* you can select and change the volume (vol), set a stop loss (S/L) or take profit (T/P), then you must choose whether to '**Buy**' or '**Sell**' by clicking the corresponding button. For *Market orders*, you can select and change the volume (vol) then you must choose whether to '**Buy**' or '**Sell**' by clicking the corresponding button.

For *Pending orders*, again, you have the volume (vol), stop loss (S/L), and take profit (T/P). With the pending order, you set the price which you wish the order to be activated at.

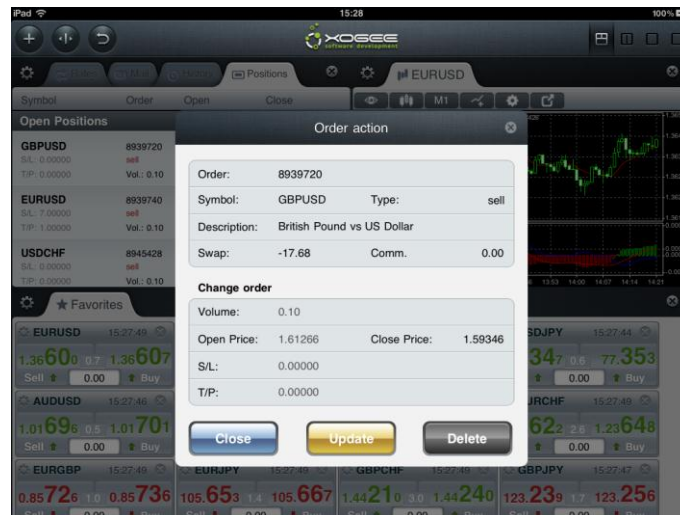

Enter the rate into the '**At price**' area then click on the '**Place order**'.

Modifying Open Positions

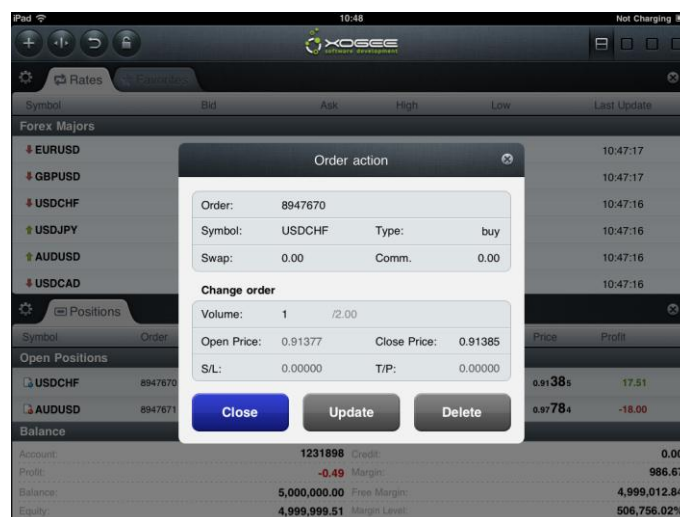

[Type text]

Clicking on an *Open position*, from within the **positions** window, will give you full details of that order. From here, you can **Close / Update** trades. If you change or set a Stop Loss (S/L) or Take Profit (T/P) on an open order you must simply click on the **'Update'** button to confirm the changes. A confirmation screen should appear shortly after confirming the order.

Partial Close

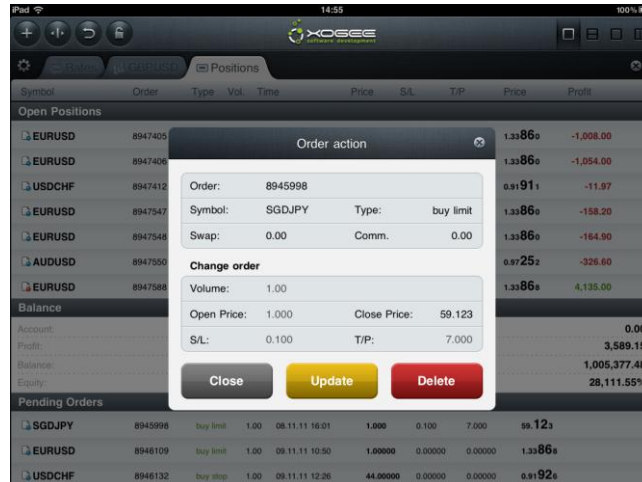

The partial close option allows you to close part of your trade, leaving the remaining Volume open. In order to partially close your trade, the Volume must be changed within the Volume box. Once making your desired changes you must then click **"Close"** button. When successfully updated you should receive a confirmation screen.

Modifying Pending Orders

[Type text]

If you select a *pending order* from the positions area, you have the option to **Update / Delete** the pending order. You can change or adjust the open price, the Stop Loss (S/L) and the Take Profit (T/P), remembering after making such changes to click on **'Update'**. Again, a confirmation should appear shortly after. When choosing to delete a pending order you should also receive a confirmation. After modifying a pending order and selecting Update your request will be confirmed.

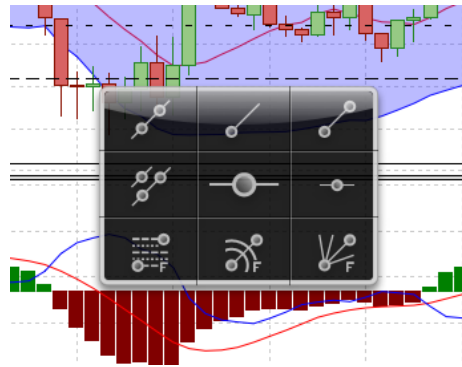

Using Charts

In order to view a desired chart, simply select your desired instrument from the Rates window. Once you have selected the instrument you are presented with a number of options: Add to Favorites, Remove from Favorites, Show Chart, Instant Order, And Pending order. Select "show chart". On either chart view you have the ability to zoom in and out – this involves the opening and closing of 2 fingers, you can switch to different time periods by using the Periodicity button on top of each chart, and you can scroll back on the chart. In addition, if you have the full view open for any chart on a trade, you can turn your iPad horizontally and the chart will open to a wider view. Selected chart zoom and periods are saved when you exit the chart.

Technical Analysis

[Type text]

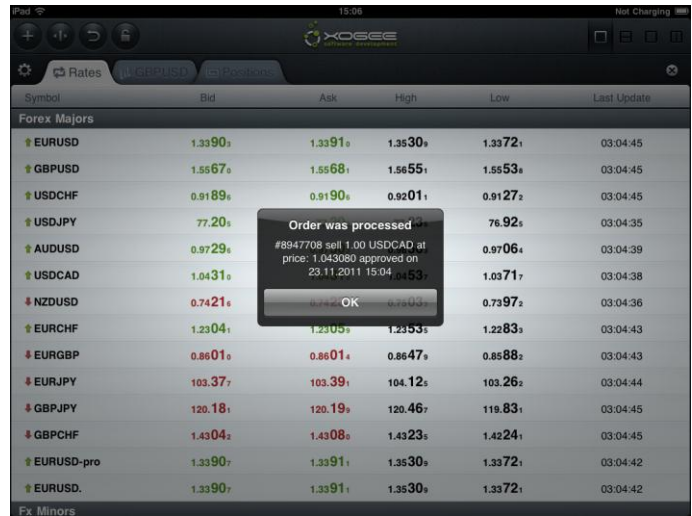

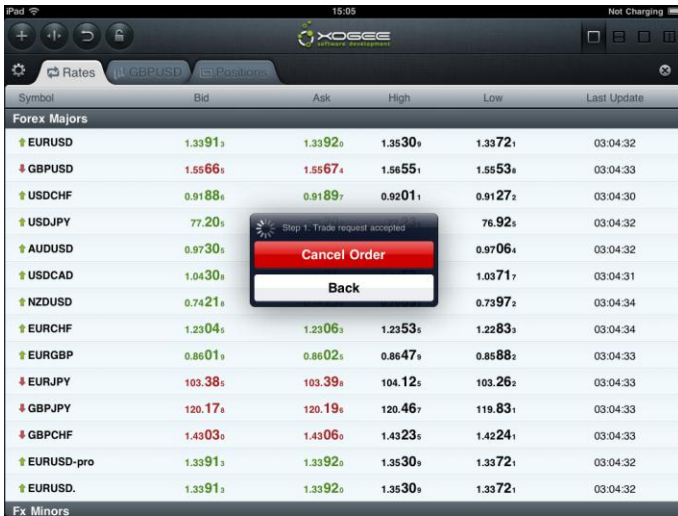

Within the charts area, you have access to technical analysis. All analysis options can be found along the top of your chart, in both vertical and horizontal views.

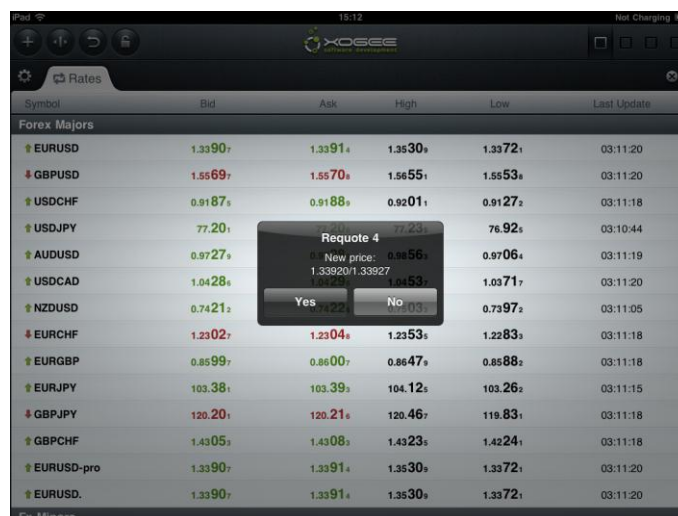

- | | | | |
|--|---|---|---|
|  | This icon shows your basic drawing options. When adding lines or additions to your chart, please select this button to fix your lines in place |  | Allows you to switch between candle stick, bar or line charts |
|  | Allows you to magnify a specific area of your chart using the Loupe tool | M1 | Allows you to choose your time frame |
|  | Provides you with your charting tools, such as trend lines and Fibonacci retracements. To add to your chart simply select the line you wish to add and place by moving the blue dot/s with your finger. To fix the line, select the 'eye' icon. |  | Add or remove indicators to/from your chart |
|  | Allows you to move and edit additions on your chart |  | Customization options |
|  | Remove drawings and lines from your chart |  | Switch to smaller screen |
|  | Separate your chart |  | Switch to full screen |
| | |  | 5 default views are provided within the customization options |

Order Confirmation

Once deciding to create a *Buy* or *Sell* order or even when creating a pending, a screen as shown below will appear attempting to send your order through. You have 2 options. The **'Back'** button will only close that window, to cancel the order you must click on the **'Cancel Order'** button before your order is processed. It will indicate whether or not your attempt was successful. If your order was successfully executed you will be shown a message like below.

There is also another possible outcome for instant request – **'Requote'**. In this case, you will receive another message as shown in the picture below. With the **'Requote'**, you can resend your request at the new price or cancel it.

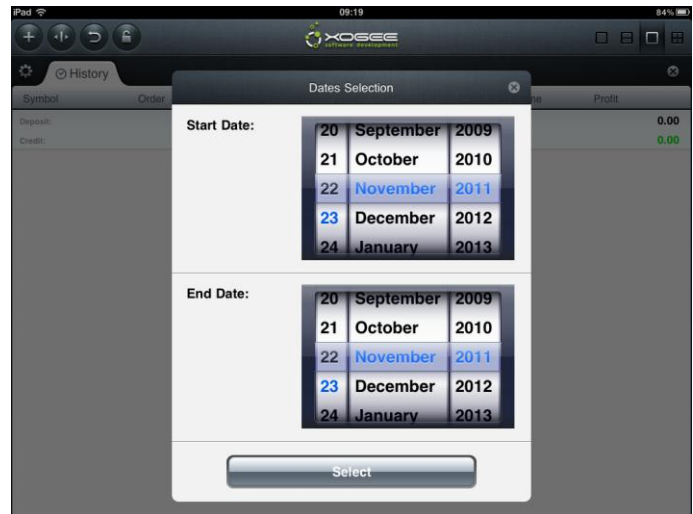

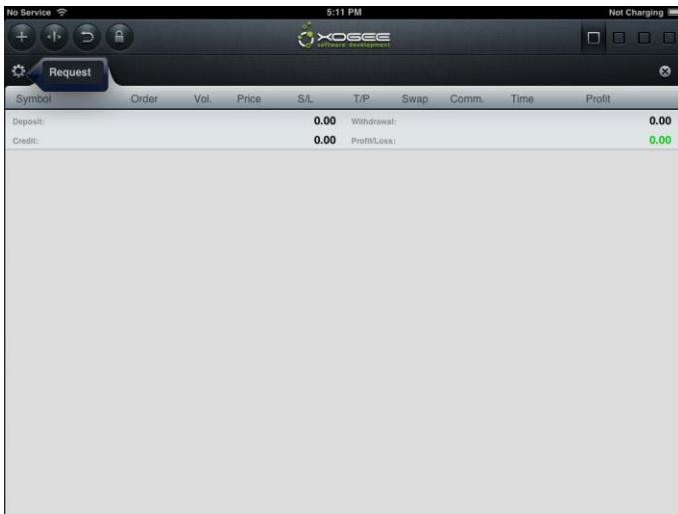

[Type text]

History Section

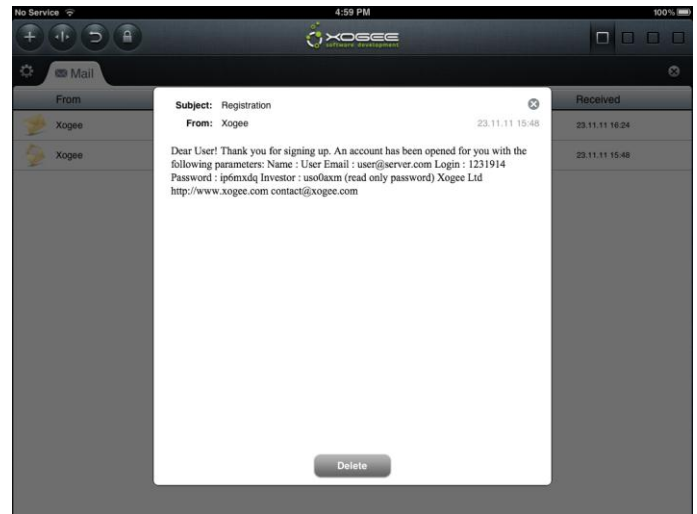

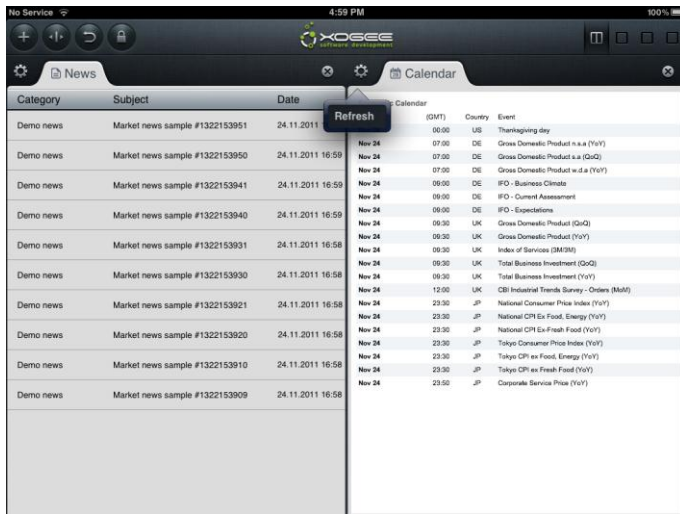

By tapping on the options icon in the left hand corner of the History window, you can access running a specific report from a certain date range. All you must do is enter the **Start date** and **End date**.

Your trade history gives you comprehensive run down of all your closed orders, removed pending orders, deposits/withdrawals, and credits. As well as your order information, for any given time period you select it will tell you at the bottom your Profit or Loss (P/L) for that period including swaps and commissions, plus your overall *Depositing* and *Withdrawals*.
